

ST25

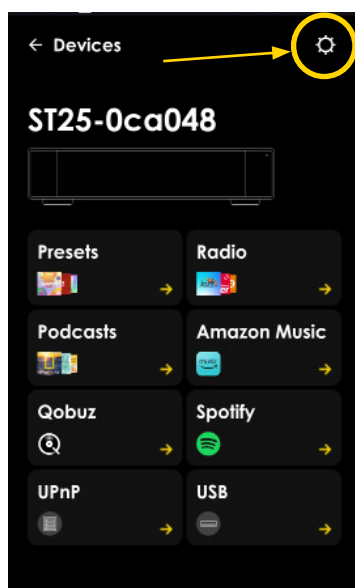

First time software update

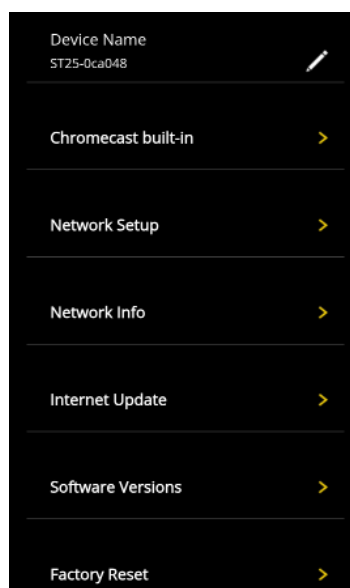

Where a software update is available, a new ARCAM ST25 with software versions before V29 will update overnight after setup. To get the latest software immediately, use the “Internet Update” option in the ARCAM Radia App.

Download the ARCAM Radia app from the Apple App Store or Google Play Store by following the QR Code links displayed by the ST25 on first power up. Discover, connect and setup the ST25.

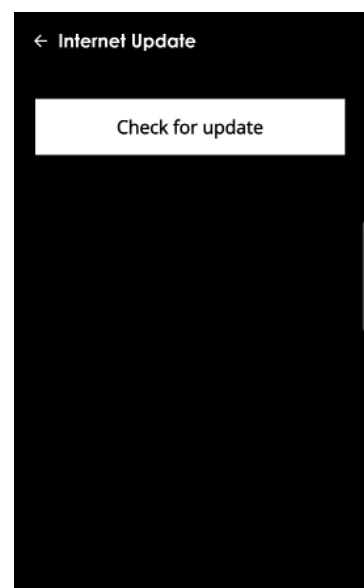

From the home page,
tap the cog in the top right corner:

Select **Internet Update**.

Select **Check for update** to start
an update

The ST25 will reboot when the update is complete.
